

## AC VIRGIN GRANULAR IMPREGNATED SERIES

### DATA SHEET

Silver Impregnated Acid Washed Activated Carbon has specific compounds of silver added to it in order to remove harmful bacteria from its target environment. This bacteriostatic Activated Carbon prevents and / or eliminates the growth of bacteria. This is of particular interest in terms of sterile water filtration systems.

<b>Material</b>	<b>100% Sri Lankan Coconut Shell</b>
<b>Physical appearance</b>	Black, Granular
<b>Particle size - US Mesh</b>	4 x 8 / 3 x 30 / 6 x 12 / 8 x 16 / 8 x 30 / 10 x 30 / 12 x 30 / 12 x 40 / 16 x 30 / 20 x 50 / 30 x 60 / 30 x 80 / 40 x 80 / 30 x 100
<b>PSD +</b>	5% max
<b>PSD -</b>	5% max
<b>CTC</b>	50 min
<b>Iodine</b>	1000 min
<b>Ash</b>	3% max
<b>Moisture</b>	15% max
<b>pH</b>	6 - 8
<b>Hardness</b>	98 min
<b>Silver content</b>	0.01%min
<b>Packaging</b>	500kg jumbo sacks / 25kg PP bags
